

IGM Biosciences to Present at the Stifel 2023 Targeted Oncology Days

April 19, 2023

MOUNTAIN VIEW, Calif., April 19, 2023 (GLOBE NEWSWIRE) -- IGM Biosciences, Inc. (Nasdaq: IGMS), a clinical-stage biotechnology company focused on creating and developing engineered IgM antibodies, today announced that Fred Schwarzer, Chief Executive Officer, will participate in a virtual fireside chat at the Stifel 2023 Targeted Oncology Days on Wednesday, April 26, 2023, at 3:00 p.m. EDT.

A live webcast of the event will be available on the "Events and Presentations" page in the "Investors" section of the Company's website at <https://investor.igmbio.com/news-and-events/events-and-presentations>. A replay of the webcast will be archived on the Company's website for 90 days following the presentation.

About IGM Biosciences, Inc.

IGM Biosciences is a clinical-stage biotechnology company committed to developing and delivering a new class of medicines to treat patients with cancer, autoimmune and inflammatory diseases and infectious diseases. The Company's pipeline of clinical and preclinical assets is based on the IgM antibody, which has 10 binding sites compared to conventional IgG antibodies with only 2 binding sites. The Company also has an exclusive worldwide collaboration agreement with Sanofi to create, develop, manufacture, and commercialize IgM antibody agonists against oncology and immunology and inflammation targets.
